Learn to see the world with the insights that Michael does. Imagine seeing and understanding people with the same skills that Michael uses every day to teach leaders around the world.

Do you have a need for a far deeper understanding of human interaction in a variety of situations?

Do you coach, train, facilitate or lead large and small groups that need to be functional in order to be highly productive?

If you can see half of what you look at-

You are are brilliant.

If you answered yes to these questions then the skills you need to develop to a high level are your perception and thinking skills which enable you to recognize behaviors and beliefs which impact the quality of human interactions.

If you know which half
-you are genius.

FORMAT OF THE CAMP

You will learn to identify what you see into *three categories*, each with a different purpose/outcome:

- An individual. Purpose: to learn what likely are the person's values, attitudes, beliefs, and styles.
- Two people interacting. Purpose: to learn who is likely to dominate. This is the origin of the Cats and Dogs metaphor.
- A group interacting. Purpose: to learn what is likely to happen and influence the desired outcome.
